Subject: FW: FY 2022 Appropriations Hearings – Call for New or Updated Fact Sheets

Good afternoon,

It's FY22 budget hearing prep time! In the attached table of contents, HQ has identified updates to fact sheets that apply to **SEMD, CBPO, and WD**:

Region 3 Issues

Blades Groundwater Site, DE R3-1

Nonresponsive based on revised scope

..... R3-2

..... R3-3

..... OW-13

I believe all of these fact sheets need to be updated and are not new. These topics are the most apparent R3 leads from the table of contents, but there may be other asks that come to the region. Once these have gone through review in the respective division(s) and MSD, please send to me and Mark Ferrell. We will review and send to Diana and Paul L for final review.

HQ did not include their final versions of the fact sheets from the last iteration. I'm tracking those down now; however, they may come from your respective NPMs.

Thanks in advance for your help in updating these fact sheets.
